## AXE Tester (AXE101) Course

This 2 days computer based course is intended to give candidates the skills required to fulfill the role of an Axe Tester in a commercial environment. Using Axe and a chosen execution tool in conjunction to test the Odin Portal sample application, candidates attending this course will be given a combination of instructor led exercises and hands-on experience of building, running and analysing tests with Axe. This Axe training has two variations depending on the automated execution tool of choice namely, HP UFT or Selenium.
