CUSTOM TOOLS (CUS101) COURSE

Apart from our standard generic tool and software testing training courses, we also offer customised tool and software testing training for specialist tools and specific testing expert areas, respectively. Our customised tool and software testing training is available on request and a customised syllabus is design with our trainer depending on your requirements.

- Rational Functional Tester
- Rational Quality Manager
- NeoLoad
- LoadRunner
- TestComplete
- Selenium
- MS VS CodedUI Test and many more.

We can also customise or combine certain of our generic software testing courses to suite your organisation's needs. The duration of customised courses will depend on the required syllabus.

For pricing, course schedules, exams and different course delivery methods, please contact training@automytest.com or visit www.automytest.com.
